—Dunkirk, New York, is greatly excited over a case of domestic scandal The Postmaster of the village, Sidney S Wilson, is charged with conspiring with his aunt against his wife, to procure from her a written confession of infidelity Such a paper was drawn up by a Justice of the Peace, of Fredonia, and the names of eight citizens of Dunkirk, married and single men, inserted in it, as persons with whom she held improper relations. Mrs Wilson signed it. She now alleges that the paper was procured by importunity, harsh treatment, and promises that it should never be known to others than those witnessing the confession; and denies that the statement is true to any extent whatever. The indignant citizens caused the arrest of Wilson and his aunt, and they were held to answer in $2,000 bail

The Record.

The following is the resolution adopted by the Senate in executive session on the night of the 21st of February last

Whereas, The Senate have read and considered the communication of the President stating that he had removed Hon E M Stanton, Secretary of War, and has designated the Adjutant General of the Army to act as Secretary of War, *ad interim*. Therefore,

Resolved, By the Senate of the United States, that under the Constitution and laws of the United States, the President has no power to remove the Secretary of War, and designate any other officer to perform the duties of that office *ad interim*

This resolution was voted for by the following Senators

Anthony,	Ramsey,
Cameron,	Ross,
Cattell,	Sprague,
Cole,	Stewart,
Conkling,	Sumner,
Cragin,	Thayer,

The following is the resolution reinstating Secretary Stanton, adopted on the 13th of January last

Resolved, That, having considered the evidence and reasons given by the President, in his report of the 12th of December, 1867, for the suspension of Edwin M, Stanton, the Senate do not concur in such suspension

This resolution was voted for by the following Senators, all of whom, we may reasonably suppose, believed the civil tenure act applicable to Mr Stanton's case, and can scarcely escape the conclusion that his removal was an infraction of that law

THE FRIGHTFUL ROAD SLAUGHTER—Our former townsman, Wm S Winsor, who was on the ill fated train which went to destruction at Carr's Rock, on the Erie Road, on the morning of the 15th of April last, was in the city yesterday and received the congratulations of his friends over his most fortunate and singular escape Mr Winsor bears upon his hand the only mark of bruises which he received The account of this eye witness does not altogether agree with some of the hitherto published statements Mr Winsor says the number reported killed and wounded is far from correct The newspapers set the number killed, at first, at fourteen and the last concedes it to be only twenty seven Mr W assures us, from personal observation at the scene of the accident, that the number of passengers killed outright would not vary three from fifty either way," to use his own expression and of this number twenty four were burnt to death Mr Windsor also adds that forty three persons were left seriously injured at Port Jervis, and fifteen only of those who were injured and unhurt were able to proceed on their journey to New York by the next train He places the total number of passengers at one hundred and fifty persons A few who were unhurt remained behind to take care of the wounded, or the remains of their lost companions Our informant says the praise bestowed upon the prompt aid alleged to have been given by the conductor and engineer of the train, to the sufferers is all bosh It was fully three hours after the accident before those officials arrived from Port Jervis, which was only fourteen miles from Carr's Rock, accompanied by medical assistants

PETROLEUM ITEMS—Within the past two weeks seventeen leases have been given on the Benninghoff Farm, on one half royalty

Another new well will be tested to day on the Atkinson Farm, Upper Cherry Run

About one week ago a well located on the southern side of the Allegheny River, at Scrub Grass, which had ceased producing, was torpedoed It is now pumping twenty five barrels per day

Two wells on the Reno Company's property, which were put down some time ago, but not tested are now being drilled deeper Two new wells have been started near the northern line of the property

On the Shamburg Petroleum Company's tract Upper Cherry Run, two new wells have been struck this week One of them is owned by Messrs Lockhart & Frew, of Pittsburgh, and is producing at the rate of one hundred barrels per day The other is owned by Messrs Spear and Hidden, and promises to produce at the rate of one hundred and fifty barrels per day The tract on which these wells are situated adjoins the Tillman Farm on the north and the Atkinson Farm on the west It has been producing from ten to twenty barrels per day for a long time past, but did not attract any considerable attention until a few months ago, when Dr Shamburg purchased it and afterwards transferred it to the stock company known as the Shamburg Petroleum Company

A new well is being tested, located on West Pithole Creek, about one half of a mile south of the Harmonial well

Several leases have been given on the north east part of the tract owned by the Fisher Brothers and R L Kennedan on Upper Cherry Run A well has been started on one of these leases

EPISCOPAL EVANGELIZATION—The Episcopal Evangelization Society held a meeting in Boston, on Wednesday last, presided over by Bishop Eastburn, at which the employment of evangelists was strongly urged and favored by all the clergy present Bishop Eastburn expressed hearty sympathy with this going out of beaten paths to spread the Gospel Rev W H McKnight of Springfield, referred to the Apostles' method of procedure, and said the difficulties of to day, though different, are as great as theirs, Massachusetts, with all its reputation for intellectuality containing many places where Christianity is but feebly maintained and where evangelists will find ample field of labor Rev Dr Huntington and others followed in actually enthusiastic approbation A new era dawns for the venerable Episcopal Church in this movement, and will put it into progressive sympathy with the age

VENANGO COUNTY REPRESENTATIVES—The contest for the Republican nominations in Venango County, increases in interest, especially with regard to the position of Representative Wm L Ley, Esq, of Oil City, has entered the lists, and is very earnestly supported in various sections His announcement appears to-day under the appropriate head. Happily we have no personal preferences to express. It's an amicable competition, within the ranks of our own party, but exclusively affecting the interests of a neighboring district Mr Ley has a handsome endorsement at home, and is eminently worthy the honor which his friends seek to bestow upon him

RICHMOND'S LETTER.

Interview Between Mrs Kobb and "Mister Johnson"—Touching Scene—&c.

WASHINGTON, May 13, '68.

Editors Morning Herald,

The verdict has not yet been brought in, and Mr Johnson has slight hopes of being acquitted in the meanwhile, he keeps himself secluded in his room, spending most of his time in reading "Baxter's Saint's Rest," sipping, occasionally, a draught of Old Bourbon, watching and praying Of late, however—since there were the faintest signs of his not being impeached—he has ceased to *pray* and employs his spare moments in *watching*—the various journals of the day—carefully reading every thing that pertains to his official life or actions

I was present yesterday during an interview between President Johnson and Mrs Kobb He was reclining negligently upon an ottoman, dressed in an elegant dishabille, as the page brought up her card A delicate blush suffused his features as he perused it, but whether caused by the well known name, or the reflection from his nose, I am unable to say Rising to his feet he donned the old stove pipe hat he was wont to swing, while swinging around the circle, and hastily sprinkling a handfull of "Billy white" upon that portion of his countenance that still showed traces of the attempt upon his life by poison—namely, his nasal organ—he exclaimed in a voice touchingly sweet and thrilling, show her in and turning to me said as he chewed a handful of Trix it is strange what an interest I have taken in this poor woman She is poor, and works hard to support herself, and I feel bound to assist her At this moment the *poor* woman entered poverty depicted upon every feature A plain, but neat silk dress with twenty one flounces, festooned in double column at half distance, and gathered at the joints by unpretending tucks patchouli completed her attire and save a diamond cluster brooch the size of an oyster shell, a single stone ring and ear drops and about four yards of neck chain—she wore no jewelry As she stepped across the room she gave a faint gulp or two to keep down her emotion and said as she threw her arms around his neck has it come to this my benefactor, that you are to be kicked out of the White House? where we have spent so many happy hours filling out and signing pardons? I am afraid it has replied Andy, if it has not, it has almost Mrs Kobb continued—I came up this morning to tell you how my heart sympathizes for you, Andrew in this your hour of affliction

My business relations bringing me in contact with you I have learned how noble and good you are to the poor grass widow and step father less

Drawing a bundle of pardon blanks from her pocket and taking a theatrical attitude she spoke rather than hissed the following words

In the I fondly hoped to clasp
A friend whom death alone could sever
But Congress—with malignant grasp
Has torn thee from my breast for ever
Yet it has torn thee from thy throne
And left the pardon business in wreck complete—
But a mysterious thou hast thy home,
Until that heart shall cease to beat—

Mr Johnson turned away his head to hide the tears that dimmed his eyes, and the tumbler of apple jack that he was drinking As I left the room Mr J took the bundle of pardon blanks which she had brought and began to sign them How truthful thought I the poets words—

Oh man man our hours of ease
Uncertain coy, and hard to please
You make our rulers, do just as you please
By smiles and lobbying
But when adversity and pains surround
Then you are never, never a coward
But on some sublime question always found
Still hobbying

But to return to our subject—the members of the impeachment court have postponed their decision until Saturday, owing to various causes among which are, want of unanimity caused by part of the jury receiving a larger bounty than the others One of the Senators attacked by wind colic and whooping cough, and fear of assassination by the Ku Klux Klan I will telegraph you as soon as the result is known

To day is the day set apart by the Grand Army of the Republic, to decorate the graves of the Union soldiers with flowers, but as yet no demonstration has been made We are loth to think it because our nation's defenders or their deeds, are forgotten By Southern journals we observe that this custom of placing flowers upon the resting places of the dead has been universally observed Loyal hearts should not hesitate to do homage to *their* dead As I write these last few lines—from my window which is open to admit the fragrance and beauty of this May night—I can see the full moon slowly and sadly uprising as she showers her mellow radiance mild and peaceful alike upon the graves of friends and foe, and from the blue above, the stars like angels eyes in unveiled splendor look down in tender love and pity upon those graves

Hastily, yours, RICHMOND

THE report of the acting Commissioner of Agriculture for the present year, relates the interesting fact that the number of agricultural inventions now annually perfected, is more than forty fold greater than it was twenty years ago These improvements are rapidly revolutionizing the agriculture of the West, reducing to the lowest minimum ever attained, the proportion of manual labor employed in its operations As a single illustration the reaper is mentioned, which, while doing the work of ten men, was first supplemented with a self raker and now, still further to facilitate and economise the harvest work is furnished with an apparatus for the instantaneous binding of the sheaves

IMMIGRATION—Immigration to this country is largely on the increase From 1859 to 1862 there was an average of about 90,000 arrivals per annum, in 1863 there were 161 648, in 1864, 184, 700 in 1865 200 031, in 1866, 236 641, and during the past year 245 486, emigrants landed at Castle Garden, showing thus a steady increase in numbers From January 1 to April 29 of the current year the number of emigrants landed at Castle Garden was 37 579, and, at that time, about seven thousand persons at Havre and Bremen were awaiting transportation

—Chas. Ross, a sailor, nineteen years old, was carried on Saturday from the ship Ansel to the Pennsylvania Hospital, in an almost dying condition, the effect of long confinement and deprivation of food and drink He had stowed himself away before the vessel left Liverpool, and according to his own account, was fourteen days without nourishment of any kind His feet were frost bitten making it necessary to amputate both legs It is not supposed he will live

—The Boston *Journal* says the greatest speed ever attained in telegraphic transmission in this country, if not in the world, was made Wednesday evening, between that city and Providence P H Burns, champion of New England and New York, sent 2,731 words in an hour, which was received by Mr Walter Phillips, of Providence, and copied in a remarkably legible manner The selection was from a work of Dean Swift's

A REFINERY, three dwelling houses, and two and a half acres of land will be struck off at Sheriff's sale in Meadville 10 a m Saturday the 16th inst The property is on Trout Run in this city and known as the "Bennett Refinery," and is capable of manufacturing 900 to 1,000 barrels of refined oil per week

EARLE'S STEAM PUMP—Attention is called to the advertisement of this new candidate for public favor. The manufacturers claim for it a superiority over all others. Mr. Alex. Scott, of Tarr Farm, is the agent for the oil regions

The Twin Light Houses.

Two pale stars, far above
On an island black and bare,
Listening to the hoarse sea moan,
Shivering in the chilly air,
Leaning hand toward a hand
On those top one naked tree
Wrestling with the storm-wind's wild,
Rushing wrathful from the sea.

Two dim ghosts at dusk they seem,
Side by side no white and tall,
Wrapping misty as a dream
Through the billows' darkening pall;
Spectres strayed from plank to spar,
With a tale none lives to tell,
Gazing at the town afar
Where unconscious widows dwell

Two white angels of the sea,
Guiding weary wanderers home,
Sentinels of hope they be,
Drenched with sleet and dashed with foam,
Standing there in loneliness,
Heralds joys for men to keep,
Through the midnight slumberless,
That the quiet shore may sleep.

Two bright eyes awake all night
To the fierce moods of the sea,
Eyes that only close when light
Dawns on lonely hill and tree
O, kind watchers! teach us, too,
Silence, courage, sufferance long!
Where an eye is turned to you,
Should a human heart grow strong

THE ROBERTS TORPEDO COMPANY.

TO ALL WHOM IT MAY CONCERN

The following is a brief summary of the RIGHTS AND CLAIMS OF THE ROBERTS TORPEDO COMPANY, which rights they intend to enforce against all parties violating the same

The rights of said Company consist of three Patents issued and granted to the United States to K A L Roberts for explosion of Torpedoes in oil bearing rock, together with the assignment of six other Patents for the exclusive right to use Nitro-Glycerine and other powerful explosive materials for the same purposes in the other Patents mentioned

In the various legal conflicts relating to the Patents above mentioned, volumes of testimony have been taken and some of the best legal talent in the country has been employed in opposition to the Company, but after a contest of over two years, it was decided by the Supreme Court of the United States that Col Roberts was the first to discover the practicability and invent the means of increasing the capacity of oil wells in the oil bearing rock by exploding Torpedoes therein

That since the organization of said Company, in order to protect their rights, it has been deemed necessary to commence suits against several persons, among whom are Alexander Hamar, Albert E Nickerson, and Kent & Mollner, (operators,) and Senate & Parke (manufacturers.) That during the trial of said several cases, the pretended claim of William Reed and others in relation to being the discoverers and first to apply Torpedoes in oil wells, was fully investigated, and notwithstanding the said pretended claim of Reed and others, judgment was obtained in the United States Court against the several parties defendants in said suits, and permanent injunctions issued against all of them. And in order further to protect the interests of said Company, suits have been commenced in the United States Court and injunctions obtained against Frederick T. Munson, of Rouseville, Venango county, Pa., and George W VanVliet, of Titusville, in said county And in addition to the above suits, in which injunctions have already been obtained, in order to protect the just rights and interests of said Company, a suit has been commenced against Sherman Camp, of Rouseville, and proceedings instituted against the Reed Torpedo Company, of Reed, Pa.; William Reed, William Phillips Ralph Pettibone and J B Stubbs, officers of said Reed Torpedo Company, their agents and employees and all other persons known to have purchased Torpedoes of them, or any of them

In view of the benefits resulting from the use of Torpedoes and the liberal patronage of the community, in order that all parties may avail themselves of them, this Company is prepared to furnish Torpedoes at a price much less than heretofore.

While the Company do not court litigation they deem it proper to place these facts before the public in order that innocent parties may not be misled into difficulty by false statements of individuals, or circulars of Companies, who are pirating their rights, as suits will be immediately brought against all persons, who, either use or purchase Torpedoes of any except them or their authorized agents, as their Patents cover the exclusive right to explode Torpedoes in oil wells.

THE American Cooking Stove IN COURT.

At an adjourned term of the Circuit Court of the United States, for the Northern District of New York, in the second circuit held at the City Hall, in the city of Albany, the 28th day of January, in the year of our Lord 1868

PRESENT

The Honorable NATHAN K. HALL, Judge,

JACOB H SHEAR & JOSEPH PACKARD, vs GEORGE B BULL & JOHN M ROCKWELL } *In Equity*

It is further ordered, adjudged and decreed, that a perpetual injunction be issued in this suit against the defendants, restraining them from further infringements of said Patent No 51,406 dated Dec 5th, 1865, for improvements in cooking stoves, pursuant to and in accordance with the prayer of the Bill of Complaint.

(Signed) A A BOYCE, Clerk

The above suit was instituted for infringement of the Patent securing the manner of fitting the ash pan in the hearth of the American Cooking Stove, and for the combination of the bailed ash pan We have repeatedly cautioned the public against selling or using stoves with these improvements not manufactured by us All persons now selling or using stoves with these improvements in violation of the above injunction, without license from us, will be liable to fine and imprisonment.

Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations as regards the safety of handling also the unprecedented force and power manifested by a skillful combination whereby the size of the Torpedo is lessened and the force many times multiplied and are now prepared to operate on wells with any of the above named explosives—either with our improved combination our old Combination Torpedo which has a record of utility to well known to need mention here

8 lb Nitro Glycerine, equal to 64 lbs. powder	$150

A Library of Universal Information.

THE NEW AMERICAN CYCLOPÆDIA:

A Popular Dictionary of General Knowledge.

EDITED BY,

GEORGE RIPLEY AND CHARLES A DANA,

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE ART AND LITERATURE

In 16 large volumes, 8vo

750 double column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated

"1 It surpasses all other works in the fullness and ability of the articles relating to the United States

"2 No other work contains so many reliable biographies of the leading men of this and other nations In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3 The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science

"4 It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge

"5 It is neatly printed, with readable type, on good paper, and contains a most copious index

"6 It is the only work which gives anything approaching correct descriptions of cities and towns of America or embraces reliable statistics showing the wonderful growth of all sections

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer If a difficulty for reference are at hand, they are consulted, and not only is the curiosity gratified and stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned

A Cyclopædia is pre-eminently the work for our country and generation This is the age of steam No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost The matter in questions found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over estimated
